In continuation with site preparation for the construction of the new Brooklyn Detention Center, heavy machinery will be delivered to the site. The machinery will enter the site through the Boerum Pl. entrance. The machinery will drive directly onto the site with no expected major pedestrian or vehicular impacts. Noise is expected and flaggers will direct pedestrians and vehicles as necessary. DOT bridge crossing stipulations require late-night/early-morning deliveries. As such, this delivery will take place between 12:00 am – 4:00 am.
