

Online Consultation for the Community Design Input Workshop#3: Brooklyn Borough-Based Jail Facility

Please collaborate with us on the online consultation period for the Brooklyn Borough-Based Jail Facility. You can watch the presentation and provide additional feedback on the facility design process.

The platform is intended to augment the in-person community meeting held on January 23, 2024, and allow anyone unable to attend in person the chance to review and comment on design materials.

The comment period on this website will close on Wednesday, February 7 at 11:59 p.m.
